

KLAES WEB BUSINESS

ANYWHERE, ANYTIME!

Klaes web business enables access to all relevant company information regardless of location or time. Business partner data, items, transactions and documents are available online at any time - regardless of business hours or location. All you need is internet access and the appropriate access rights to retrieve all important data.

Direct access to up-to-date information eliminates time-consuming queries and waiting times. Workflows are accelerated, teamwork becomes more efficient and transparency within the company increases. For example, a business partner's open items can be viewed at any time without having to rely on internal feedback.

Klaes web business supports companies in working flexibly and digitally and creates the basis for modern, location-independent business processes.
